1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bernard Codd on 12/7/04.

The application has been amended as follows:

Claim 2, line 20, change "the position of the interface in the depth direction" to --a position of an interface between said first and fourth regions in a depth direction--.

Cancel claims 17 and 18.

2. The following is an examiner's statement of reasons for allowance: The first additional major difference in the claims not found in the prior art of record is the semiconductor device comprising: a plurality of fourth regions are spaced from each other by a distance allowing connection between depletion layers extending from neighboring said fourth regions, respectively, in an on state; and a fifth region of the second conductivity type formed between the semiconductor substrate of the first conductivity type and the first region of the second conductivity type. The second additional major difference in the claims not found in the prior art of record is the semiconductor device comprising: a second electrode portion connected to the second region; and the fourth regions comprises a plurality of discretely formed regions, and the neighboring fourth regions are spaced from each other by a distance allowing

connection between depletion layers extending from the neighboring fourth regions, respectively, in an on state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
